Met Office Aberdeen Meteorologist's View
Feeling bitterly cold, snow may blowing around in the wind at height

Forecast for Saturday 08 Jan 2022
Weather: A band of snow will quickly spread east first thing on Saturday morning. Then drier and clearer weather extending east to leave a bright afternoon with occasional snow showers. Feeling very cold in the strong summit winds. Some icy surfaces developing as freezing level rises in the morning.

Maximum wind: Westerly 30 to 40 mph, although southerly 50 to 60 mph at first

Chance of cloud free mountain/hill tops above 800m: 70%

Visibility: Poor in cloud down to 500 metres at first. Cloud then becoming well broken, lowering to 700 metres in showers

Temperature:
Glens: Zero rising to 3 Celsius
At 800m: Minus 3 rising to 1 Celsius for a time, falling back to minus 1 Celsius
Freezing level: 200 metres, rising to 800 to 1000 metres for a short time around the middle of the day, then falling back to 600 metres
